Ljubljana, April 2015 - January 2016

EISALP

## 1. SYSTEM REQUIREMENTS

Apache (version 2.2. or newer), MySQL 5.1 or 5.5. (or MariaDB) and PHP 5.3, 5.4. or 5.5 (for better performance 5.5 or newer version is recommended).

## 2. FILES

Attached ZIP package contains:

- »files« - installation files
- »database« - SQL database file

## 3. INSTALLATION PROCESS

Create a database »eisalp\_app« on your server and upload SQL file located in »database« folder. Upload files from the »files« into a dedicated folder on your server where you would like to contain the web-application. Open »main/inc/conf/configuration.php« in the web-application folder and arrange the data according to your server data.

Key settings:

- `$_configuration['db_host']` – address / name of mySQL server (most common »localhost«)
- `$_configuration['db_user']` – designated user for the »eisalp\_app« database
- `$_configuration['db_password']` – password of the database »eisalp\_app« user
- `$_configuration['main_database']` – database name (currently assigned name is »eisalp\_app«)
- `$_configuration['statistics_database']` – statistics database name (most commonly it is the same as the database name e.g. »eisalp\_app«)
- `$_configuration['user_personal_database']` – users information database name (most commonly it is the same as the database name e.g. »eisalp\_app«)
- `$_configuration['root_web']` – web-application root address (example:  
http://www.myeisalpapp.com/ - domain is recommended to be »al iv« with a sub-domain for example: http://eisalpapp.domena.com/. **NOT RECOMMENDED** in the form:  
http://www.domain.com/myeisalpapp/ )
- `$_configuration['root_sys']` – root address for the server installation (example: /var/www/)

## 4. REGISTRATION AND FIRST LOGIN

After a successful installation of the EISS platform you can access it through the assigned domain and the following window will appear:

## WELCOME TO THE EUROPEAN INDUCTION SUPPORT SYSTEM

EIS-ALP project is set on finding out what is that a prison educator has to do that is different or over and above what teachers in other areas of the lifelong learning sector has to do. Thus welcome to the gate to the European Induction Support system, a web-based tool for adult learning professionals to assess and further develop your key competencies in prison education.

### WHAT WILL YOU GAIN?

European Induction Support System offers you a coherent and competency-based learning and development pathway in 5 languages (English, Romanian, Maltese, Slovenian and Portugal):

- 1) a self-assessing tool that places your existing competencies in context and gives you a possible development solution
- 2) a number of modular blended-learning experiences to work upon the assessed competencies
- 3) a virtual European library. Thus it will stimulate your professional development as well as the experience will contribute to your cultural integration and understanding, promoting dialogue as a main tool for adaptation.

### HOW DO YOU KNOW IF IT'S FOR YOU?

The platform is designed for existing and future prison teachers. Navigation and the materials are offered in 5 European languages: English, Romanian, Maltese, Slovenian and Portugal which can be chosen upon your sign-in. Chamilo backbone offers the possibility to regularly add the teaching modules and thus keeps your user-experience always fresh and fulfilling.

Welcome to a discovery journey of your prison-teaching competencies.
